GHOLFBAAN & TERREIN

Geagte lede,

Soos almal weet is winter op sy einde en staan ons nou amper op die drumpel van die fees seisoen. Met die vooruitsig van baie vakansiegangers wat ons baan sal besoek oor die tydperk werk die Baan & Terrein bestuur hard om ons baan op sy beste te kry.

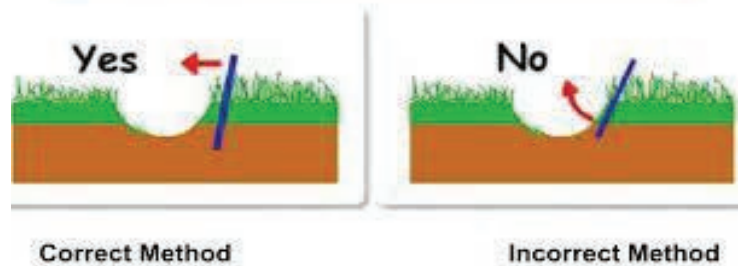

Paadjies word reg deur die baan gebou en opgradering van die sandkuile is amper voltooi. Ons beoog om teen die einde van November al die paadjies klaar te hê. Lede sal ook opmerk dat die rof redelik welig toegegroeï het in die laaste tyd wat baie te doen het met die besproeiingstelsel wat ons onlangs ingesit het, sowel as die wonderlike reënval. Die nuwe toerusting (grassnyers) is ook besig om 'n groot verandering te maak en sal teweegbring dat ons vinniger ons doelwitte bereik.

Daar is wel 'n paar knelpunte waarna ons as lede baie dringend sal moet omsien naamlik die hoeveelheid gate wat spelers op die skoonvelde en setperke agterlaat. Die skade op die skoonvelde is redelik onder beheer maar ons vra dat al ons lede die sand wat beskikbaar is sal gebruik om die herstel van ons skoonvelde te bespoedig. (dit is verpligtend).

Aangeheg is 'n paar illustrasies wat verduidelik hoe om merke op die setperke so gou as moontlik te herstel. Ons vra ook alle lede wat gholf karretjies gebruik om altyd in ag te neem dat daar sekere reëls is vir die gebruik daarvan. Bly asseblief 10 meter en meer weg van die bowwe asook die setperke. As die skoonvelde baie water op het en modderig is probeer om daardie areas te vermy. Dit veroorsaak baie probleme vir die baan bestuur om hertsel werk te doen aan skoonvelde wat beskadig is deur gholf karretjies.

HOW TO REPAIR A PITCHMARK

Pushing the bottom of the depression upward only tears the roots, and kills the grass.

Right: Using the prongs to push grass at the edge of the depression toward the centre

Wrong: Using the prongs as levers to push up the bottom of the depression

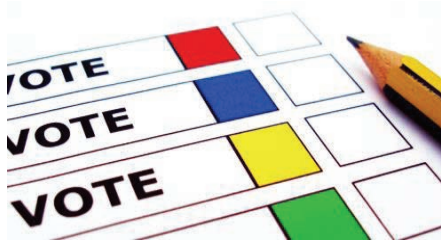

14DE PUTJIE LANDMERK

Ons seder en landmerk op die 14de putjie het tydens 'n windstorm omgewaai. Die bestuur het onmiddelik aan die werk gespring en die gat is reeds gevul met 'n Waterpeer boom, ook genoem *Syzygium guineense*, naby verwant aan die Waterbessie (*Syzygium cordatum*). Ons is seker dat hy binnekort weer die spelers mooi gedagtes sal laat dink as hulle afslaan.

Hier wil ons veral ons dank uitspreek teenoor Christo Langenhoven van Coastal Rigging wat die boom vanaf Knysna kosteloos vervoer het en ons ook bygestaan het met die plant proses.

Wessel Brand by ons nuwe Waterpeer boom op die 14de.

AJV STEMME

Die Raad en Bestuur wil graag langs hierdie weg vir Barry Vermeulen en Rachel Mulder hartlik bedank vir hulle onbaatsugtige bydrae tydens die afgelope AJV. Hulle het ons bygestaan met die tel van die stemme. Dankie ook aan die meer as 300 lede wat hulle stemme laat geld het.
